Friday 8 December 10.30am • 1.30pm • 7pm **age 8+**  
**Cartoon Science** Helen Lloyd

The laws of cartoon science state that nothing falls faster than an anvil! Is this true? How does gravity really affect things with different weights?

Join your favourite cartoon characters on a journey to discover the difference between cartoon science and real science. What are forces and how do they work? Can objects change shape and then return to their original shape? Find out what happens to things when they combust or explode! The show features animated clips, audience interaction and lots of demonstrations of 'real-world' science.

Admission is free but booking is essential as places are limited. Booking opens four weeks prior to the lecture. To reserve places please either email [talkingscience@rl.ac.uk](mailto:talkingscience@rl.ac.uk) or phone 01235 445959 (24hr answerphone).
