Three Short Words

In the early 80's, whilst still at teacher training college, I was sent for some practical experience to a special needs school, that specialised in children with severe disabilities. I was placed in a classroom with a fully trained teacher and was sat with a little boy who was extremely agitated. I leaned over to him and whispered in his ear, "Jesus loves you." Immediately the boy's agitation calmed and he began to smile and make happy sounds.

Have you every thought about the significance of those three short words "Jesus loves you"? Can anything be more simple and yet profound? Consider what it means to have the Creator of all things know your name? Ponder too, what the apostle Paul said. He asked, "**Who shall separate us from the love of Christ**"? (*Romans 8 v 35*).

What does it mean to have someone like that to love you? It means life and peace and hope and joy. So if you don't know Him already, why not get to know the One who loves YOU!
